

PERRY PARK YARN STORM FENCE TIP PATTERN

Goal: Create a knitted/crocheted 2.5" by 4" swatch to be sewn into an open ended tube (if you can slide the tube over your index finger you've got it!) The colorful tubes will cover the many fence tips that surround the Children's play area of the Park: 361 Washington St., Somerville, 02143. Installation Saturday, August 25, 2012, 9-1 PM, as part of The Wrap Around Project: www.navegallery.org

Fence Tip Pattern for Knitting (please, crochet-ers, adapt for your skill)

- Bright colored yarn (mix and match, use up ends!)
- Size 7 needles
- Medium weight yarn (I also mix two strands of light weight yarn)
- Cast on 12 stitches

Create your own Pattern. Some that I have created:

- All knitting
- Knit a row, Pearl a row
- Ribbing variations: Knit 2, Pearl 2 or Knit 3, Pearl 3, or Knit 6, Pearl 6
- With 11 stitches I have done seed stitch (k1, p1, end with a knit)

Cast off so that the end-tail of the yarn is on the same side as the cast-on tail. Leave 12 inches of yarn and sew the 4" lengthwise. Turn inside out for your tube. Save a tail of yarn so that a Promo sign can be attached. If you want me to sew up the 2.5 by 4 inch swatch I can do that for you and I will attach sign.

Drop off at the NAVE Gallery. There is a mailbox on the street level to the right of the entrance of the Clarendon Hill Presbyterian Church. Drop off at my home: 353 Washington St., Somerville, next to Perry Park. Or bring to Yarn Storming, Saturday 8/25. These tubes will be replaced throughout the 10 week public art exhibit. Donations welcomed 11/1/12. Thanks, Margaret Ryan, margaret@rcn.com.
